

Plans for this week: July 21 – July 25

1. Launch the project.
2. Continue development process for the Vivaldi (WA5VJB) and the dual-horn (W1GHZ) feed designs. Some amount of progress occurred in both areas over the past week.
3. Continue working on the Antenna and Feed Document.
4. Develop project overview document.
5. Attend San Diego Microwave Group meeting Monday 21 July. This is the annual ranging party in anticipation of the 10GHz and up contest coming up. I'll be photographing and vidographing the event for a videocast for the team.

Welcome to the Microwave Engineering Project development email list! Thanks for joining. Please forward this email to anyone you think would be interested in the development of the project.

Send updates and work proposals to w5nyv@yahoo.com
